Key Characteristics of Carcinogens 6-29-15 tracked kzg DD and Caldwell.docx

Dear All:

This is looking great and just about ready for re-submission. David DeMarini and I have made our changes jointly on the same version--working with the version Kate sent yesterday. We saved all the track changes on Kate's and made our changes in track changes--so you can easily see what we have done. They are very minor corrections/changes and can easily just be typed into the current version. Most changes are just to make sentences clearer and to avoid ambiguity. We also added a few recent references that provide further support for what is in the paper.

We did not make any changes in the response letter. Thanks for the opportunity to collaborate on this important paper.

Sincerely,  
Jane Caldwell and David DeMarini

Subject: Revision of EHP ms 15-09912-REV

Dear all

I have significantly revised the EHP paper on the key characteristics to respond to the Reviewer's comments and your proposed edits. I attach a version with tracked changes and the other with them accepted. I also attach a draft of our response to the reviewers. I would greatly appreciate your comments on these revisions by Friday morning 8 am PST, Berkeley time so that I can submit the revision to EHP before the July 4 Holiday weekend. If I don't hear from you by then I will assume that you are OK with all the revisions. You can send comments on any of the documents attached.

Thanks for your patience on this resubmission and for your continued involvement.

Best regards,

Martyn
